Part A: Pupil premium strategy plan

Statement of intent

At Belle Vue Primary School we have high expectations for all pupils in our school, and believe that every child can fulfil their individual potential, both academically and socially. We focus on providing good quality first teaching; engaging effectively with the school community and providing approaches that allow us to meet the individual needs of our pupils. We aim to achieve this by providing an appropriate level of challenge whilst also ensuring we offer and provide any needed support to allow children to overcome barriers to learning. Our curriculum is engaging, varied and knowledge-rich, equipping our pupils with the knowledge, skills and understanding to be positive, contributing, members of our global society.

Our strategies will target the individualised needs of our children in receipt of pupil Premium funding, with the main aim being that these children will do as well as their peers with similar starting points, who are not eligible for the pupil premium. Some interventions, strategies and school initiatives have been made possible by allocating the pupil premium funding. These are not restricted to only supporting pupils eligible for the pupil premium funding.

Our pupil premium strategy plan will work towards providing children with the educational support and emotional wellbeing and mental health support required to accelerate their learning and allow to progress and achieve in line with their peers who are not in receipt of the funding. Analysis of assessment data and discussions at pupil progress meetings, will allow both teaching staff and senior leaders to ensure that we can tailor any support required to meet the individual needs of our pupils who are eligible for the funding. We also aim to provide wider, extra-curricular experiences and opportunities, such as after-school clubs, that they otherwise might not have access to.

Part B: Review of the previous academic year

Outcomes for disadvantaged pupils

Internal data shows that attainment and progress of pupils especially our pupil premium pupils, was not as expected and the majority of our pupil premium pupils were not reaching age related expectation in the end of year assessments.

Introduction of a new behaviour policy has helped develop a calm, consistent and positive approach to behaviour.

Staffing was adapted to provide small group support to pupils, including our disadvantaged children, who require additional social and emotional support.
